We are into 2nd quarter of Rotary year 21-22. We hear that COVID is entering its endemic state, so be careful always wear mask when going outdoors. Also ensure all of you are vaccinated against COVID. I am happy to learn that your club has been recognized for adding substantial number of members. Take care to engage all members of your club. Post pandemic recovery stage presents fresh challenges. Orphaned children, broken families, death of earning members etc are some areas you can focus. Festival season is round the corner. Work towards mitigating suffering of those around you while celebrating Dussera followed by Diwali.

Student: This brings us to the end of our activities for the month of September, we would love to hear from you about the month's activities.

Dearest Rotaractors of MES College,

Super stoked to have seen activities of various avenues and areas of focus take place, in the month of September!

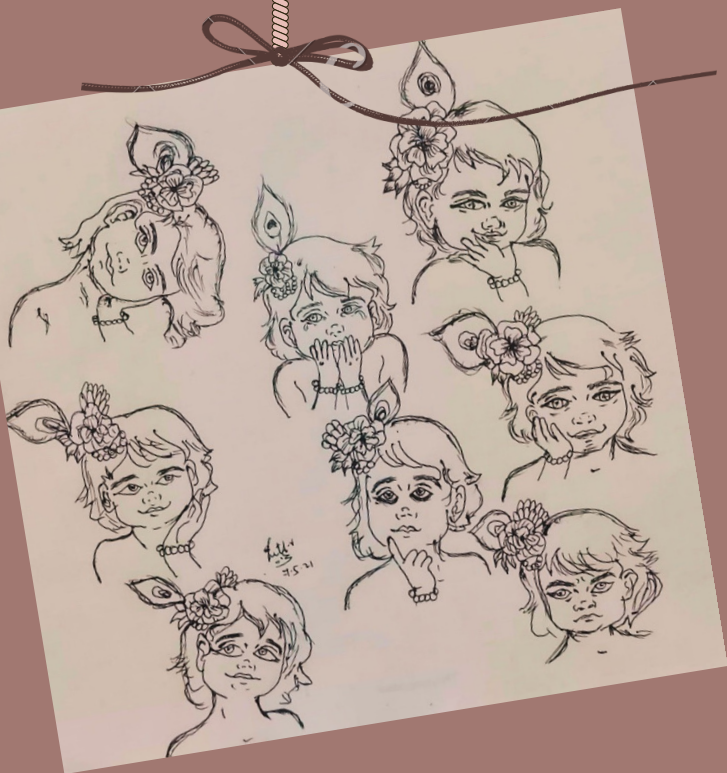

Teacher: During these trying times where world peace is at stake, it was apt that MES RaC collaborated with the district to host the online Peace Conference, where perspectives on world peace were shared.

Building new networks and meeting Rotaractors from various other districts was also a great step taken, during letterhead exchanges as well as at the ICGF.

Overall a fruitful month, looking forward to seeing continued activism and action even in the coming months!

Gratitude to the Giver

I close my eyes to imagine,
How the hands of a crying tender child found home
and comfort in the hands of the teacher,

How one left home with tears,
and found happiness in the refuge of a teacher,

Everyday she comes up with a smile, hiding tiredness of the sleepless nights,
Sleepless nights of continual efforts of making a lecture count,

She stands and speaks, and writes and guides,
Seeing her pupils on greater heights,

She strains and stresses but with a smile,
she walks the steps the strongest deny,

Days of frustration, grief and sorrow, she bangs the table and calls for a stop,
then she sees the future of many written on what she does today,

She sits and breathes and starts again,
Can I ask you, what can I do to pay back your favour.

Each day she teaches the science and finance and numbers and past struggles,
she teaches the ups and downs and urges on survival,

We owe a lot to you, for the difference you made in life,
We pray and hope, that you get the best in life.

As I open my eyes,

I see the journey of a shivering weak child leaving the
premises as a confident bold individual,

You grew old and tired, but your eyes shined brighter with pride,

All we can do is express gratitude to you dear teacher,
for what you've done, for that which is immeasurable, for what I am
today, for what I will be tomorrow.
