## MESSAGE FROM HOD

Multi-tasking. Need of the day.

The academic year 2016-17 comes at a time when we are still in a hilarious mood after being graded by the NAAC with 'A' grade.

Time just flies off and we are already in the academic year after achieving this distinction.

We at the commerce Department are Undoubtedly happy at this junction, but we are also fully aware of the fact that this is not the time to just back in the past glory. We have realised the tremendous amount of

responsibility this A grade has placed on us. We not only have to maintain, but also surpass this rating in the next cycle to be assessed by NAAC in the year 2021. Excellence they say, is doing better than oneself. The comfort zone is very ephemeral.

This reading was because of the contribution of all the stake holders of the college. The management. The teachers, the students, parents, non-teaching staff etc. Weekday is the role of commerce Department in this scheme of things? Or department in terms of student strength consists the largest constituent of our college.

We are also glad to have contributed largely to the A grade in the firm of academic excellence and extra-curricular activities.

Our immediate task is to continue excelling in both academic and extra-curricular activities. We have added a third dimension to inculcate values amongst our students.

This calls for a balancing act on the part of both - our students have to excel in extracurricular activities and simultaneously achieve high academic results. We teachers organize a large number of extra-curricular activities and never dilute our academic activities. Multi-tasking is the need of the day.

The following words of our secretary -Academics Dr. Shakuntala Katre uttered the very next day of NAAC peer team visit, in Jan 2016 sums up everything. "One day is already over after the NAAC per team visit, and we are one day shorter to the next accreditation visit. What have you done in this one day?? "

**-DR.TG.JANARDHAN**

## EDITORIAL NOTE

CREATIVE THINKING IS INDISPENSABLE FOR SUCCESS. OUR COLLEGE HAS ALWAYS GIVEN THE RIGHT ENVIRONMENT TO STIMULATE CREATIVITY AND OPPORTUNITY TO EXPLORE OUR TALENTS. IN THIS **ABHIGYAAN MAGAZINE 16-17** THE COMMERCE MAGAZINE, WE HAVE TRIED TO CAPTURE SOME CHERISHABLE MOMENTS. ON THIS NOTE WE WOULD LIKE TO EXTEND OUR GRATITUDE AND THANK ALL THE PROFESSORS AND STUDENTS WHO HAVE CONTRIBUTED TO THE SUCCESS OF THE MAGAZINE. WE ARE GRATEFUL TO THE MANAGEMENT AND PRINCIPAL FOR THEIR IMMENSE SUPPORT AND GUIDANCE

THANKING YOU

*“THE HIGHEST EDUCATION IS THAT WHICH DOES NOT MERELY GIVE US INFORMATION BUT MAKES OUR LIFE IN HARMONY WITH ALL EXISTENCE” -RABINDRANATH TAGORE*

## VANIJYA VEDI 2016-2017

### **“VANIJA VEDI” -THE COMMERCE EXHIBITION**

The land of commerce, the commerce exhibition was conducted on the 16<sup>th</sup>, 17<sup>th</sup> & 18<sup>th</sup> of February 2017, by the Department of Commerce.

The main objective behind conducting this exhibition is to enhance and expose the communication presentation & managerial skills of our students and also is a platform to showcase commerce to all others from the non-commerce background, it was not merely an exhibition but also an inter class competition which had an overwhelming participation of around 280 students comprising of 52 exhibits with a team of 40 volunteers and 8 organizers’.

The exhibits were of various streams of commerce like ancient auditing , steel flyover, metro ,online and offline banking , make in India , Agro industries , Payments, Bank ,GST , Railway Budget &Development, Evolution of money , Bombay stock exchange , vending machine , laser security system , global banking, Demonetization , Bit coins , scams , Bills of exchange and also products that have been invented by our own students like the swing i.e.,. Water pump, vacuum cleaner made from bottle and scrap and electronic cycle.

The esteemed chief guest & judge for the event was Mr. Narashima Murthy who is M. Com, FII, FLMI, ACII, ARA, MIMA, AIV, AMC and also a management consultant (Hong Kong), Practicing CMA (ICWA), Life insurance & Reinsurance specialist.

The Event also witnessed visitors from MES IOM, Reva Institute, neighboring colleges and sister concerns of MES.

The Winners of the commerce exhibition

1<sup>st</sup> Price – THE IGNITORS

2<sup>nd</sup> Price – TEAM VIKRAM & COMPANY

Best Innovation – TEAM SHRUSHTI

The Best Model – TEAM IGNOOLSTADT

Teacher Coordinator:

- Prof. Indu.Y
- Prof.Swathi K Bharadwa

## **Business plan**

The Department of Commerce had organized, as a part of Entrepreneurship Development Program, the students were assigned to put up stalls or shops to express our business and trading skills and polishing of **entrepreneurial** skills into a person needed to establish and successfully run his / her enterprise. The place of trading activity was fixed to be within the premises of the college especially the quadrangle of the college where around 20 stalls were put up. Their own business being and the students of other sections and staff of the institution were target.

The first part under of assignment was the formation of teams which also considered individual interests and ideologies. This task also explained the responsibilities and targets of each and every team member, making sure they contributed positively to the assignment.

The second part under trading was to identify the tastes and preferences of the target customers. The students came up with numerous ideas right from selling food items and chats to clicking a selfie with a parrot, from selling key chains to special headphones. It also consisted of providing of services such as tempered glass and application to Mehndi designing. It also involved entertainment activities such as tricky games and brainy tasks which provided winning customers with prizes and goodies.

The third and most important part of the assignment was the construction of a Business Plan. This step involved the step by step illustration of each and every task undertaken by the team with respect to the assignment. It explained every step right from the framing of the Team's name, the types of products and services rendered, number of employees and their roles to sales processes, marketing and accounting of the sales proceeds... But the most important aspect of the Business Plan was the Budgeting for the business and efficient distribution of the same. The budget involved the contribution of all the team members which consisted different scale of amounts.

The next and final step involved the Trading Operations and Activities. It started right from setting up stalls at desired spots on the quadrangle, arrangement of products, and collection of revenue to distribution of products and services. The sum total of all the revenue was accounted and the profit or loss of the business was determined with the unsold goods being accounted as closing stock of the business.

This business plan can be considered as the first attempt to bring out the entrepreneurial skills of each and every student of the commerce batch of the institution. It provided students the platform to put our theoretical knowledge into practical knowledge (physical work and perform activities). It gave them practical exposure which was most required as a student of commerce. It gives the courage that we withhold the capacity of establishing an enterprise and perform commercial tasks. Most importantly it portrayed the power of team work and showed them how important each individual's contribution to a business was. It showed them that if we walk together - any path is a right path and there is always someone beside us to enjoy the profit or to share the loss.

### **Guest Lectures**

The department organizes guest lectures by inviting experts to address our students. The following guest lectures were organized during this year:

- Career opportunities in hospitality sector. – By Mr. Chiradeep Bhattacharjee an alumnus & A successful hotelier
- Stock Exchange - Mr. Rahul Dhawan from Bombay Stock Exchange
- Mutual Funds - Mr. Rahul Dhawan from Bombay Stock Exchange
- Prospects in the field of Insurance – Mr. VenuGopal, President Indian Institute of Insurance
- Indian Taxation System– Mr. Anil Bharadwaj, A Chartered Accountant & also visiting faculty to various B schools in Bangalore.
- Opportunities Abroad– Ms. Usha& Ms. Sheril of IDP
- A presentation about rating of students for better career opportunities–Mr. Omar Zubair & Mr. Vishwanath from Cantern – A company dedicated to students' enrichment for better placement.

## **Guest Lecture on Career opportunities in Hospitality Sector**

This was organized on 11th of August 2016 for B. Com students to familiarize the students about the significance of career opportunities in Hospitality Sector in the present dynamic world. The speaker invited for this event was Mr. Chiradeep Bhattacharjee.

He has been working in this sector since his graduation & has acquired vast practical experience in this sector and also the former student of MES College.

He emphasized on various aspects involved in hospitality sector such as catering, accounting management, accommodation & so on. On the other hand, hospitality is not restricted to Inbound, but has also gained popularity across the world in all the means of commutation. So, Aviation is one such upcoming area for jobseekers. He made a point that Students who would like to focus on hospitality sector have enormous amount of job openings in their desired area of interest.

It was very well received by the students and He also offered to take our students on a study visit to one of the star hotels to give them the practical exposure on the management aspects involved over there.

“THE BEST WAY TO FIND YOURSELF IN THE SERVICE OF OTHERS”

-MAHATMA GANDHI

## STOCK EXCHANGE

A guest lecture on stock exchange was organized on the 5<sup>th</sup> of August, 2016.

The speaker of this event was Mr. Rahul Dhawan who is a domain expert in equity research and financial planning from the Bombay stock exchange.

The lecture covered an overview of the securities market, BSE market offerings, trade guarantee funds, investor protection fund, investor grievance and operations of capital market.

### "Present Indian Tax Structure"

This was organized on 18th Jan, 2017 for degree students to familiarize the students about the significance, importance of tax policies and framework. The speaker invited for this event was Sri. Anil Bharadwaj, chartered accountant and also the alumnus of M.E.S College.

*"EDUCATION IS NOT THE LEARNING OF FACTS BUT THE TRAINING OF THE MIND TO THINK"*

*-ALBERT EINSTEIN*

## A report on Industrial visit to KSDL

Students from the first, second and final year B.com were taken for an industrial visit to Karnataka Soaps and Detergents Limited (Mysore sandal soaps) on 20<sup>th</sup> February 2017. We had around 50 students to this visit. There was an oral presentation on the manufacturing of different kinds of soaps by Public Relations Officer – Mr. Balasubramanyam. He explained briefly about the industry how it was started, process of making Soap and Detergent step by step and their uniqueness in the field of Soaps and Detergents. They explained us how they have updated the technology in making a better soap and useful for the customers. The students got to know its uniqueness and its brand all around the world. They saw how the Labourers are working hard to make these soaps despite the hurdles they face.

We had tour to the manufacturing unit of KSDL, where all our students got an exposure practically how exactly the Mysore sandal soaps are manufactured. They viewed the mixture of raw materials to the soap, as it was mentioned by PRO – it's the pure Sandalwood oil for the fragrance and other natural essentials consisting of vetiver, patchouli, Glycerin and geranium in the big containers. They also watched the technology used in preparing the soaps.

Then students were taken to the Packing section of Mysore sandal soap where all the machines related to the packing and the workers are placing each and every intermediate product on the machine which then goes for complete packing by collecting the soap and then putting a cover on the soap with the Logo and Brand name placed. They have 3-4 more sections such as production, manufacturing sections, even though we had limited access to the various department, it was a learning experience for all our students.

# I. Coca Cola

Coca-Cola (often referred to simply as Coke) is a carbonated soft drink produced by The Coca-Cola Company of Atlanta, Georgia. Originally intended as a patent medicine, it was invented in the late 19th century by John Pembert.

Coca-Cola was bought out by businessman Asa Griggs Candler, whose marketing tactics led Coke to its dominance of the world soft-drink market throughout the 20th century. The name refers to two of its original ingredients: kola nuts, a source of caffeine, and coca leaves. The current formula of Coca-Cola remains a trade secret, although a variety of reported recipes and experimental recreations have been published the company produces concentrate, which is then sold to licensed Coca-Cola bottlers throughout the world. The bottlers, who hold exclusive territory contracts with the company, produce the finished product in cans and bottles from the concentrate, in combination with filtered water and sweeteners. The bottlers then sell, distribute and merchandise Coca-Cola to retail stores, restaurants and vending machines. The Coca-Cola Company also sells concentrate for soda fountains to major restaurants and food service distributors.

The Coca-Cola Company has, on occasion, introduced other cola drinks under the Coke brand name. The most common of these is Diet Coke, with others including Caffeine-Free Coca-Cola, Diet Coke Caffeine-Free, Coca-Cola Cherry, Coca-Cola Zero, Coca-Cola Vanilla, and special versions with lemon, lime, or coffee. In 2013, Coke products could be found in over 200 countries worldwide, with consumers downing more than 1.8 billion company beverage servings each day.

**Based on Interbrand's best global. brand study of 2015, Coca-Cola was the world's third most valuable brand.**

# 1. Industrial tour

## 12<sup>th</sup> September 2016

Department of commerce organized an industrial visit to the manufacturing plant of Coca cola at Bidadi, on 12<sup>th</sup> September 2016.

The main objective behind the visit was to make student aware about how various activities related to marketing, financing and human resource are carried out in company and give them feel of practical world.

As a global company Coca Cola is active in more than 200 countries with affiliated companies, associated with thousands of customers and suppliers. Their greatest asset is their brand and its values. Their brand promise is the heart of everything they do and everything they say. This is what that differentiates them and is the embodiment of the promise they make to their customers

It was attended by more than 60 students of the B.com. The visit gave students a practical exposure to various commerce aspects like the manufacturing process of bottles, packing and packaging, quality assurance process, marketing strategies and many more. The visit enabled to have greater insight of the academic concepts.

It is rightly said that “See & know’ is better than ‘read & learn’. Students have got real feel of company’s working after this visit.

They got a chance to transfer their theoretical knowledge to practical implication.

This will even help students to understand subject matter clearly in future also. We along with student would like to extend our gratitude to company for permission and support they gave to make our visit a success with accomplishment of objective **and our director** for arranging this visit for our student

‘A NATION IS ADVANCED IN PROPORTION TO EDUCATION AND INTELLIGENCE  
SPREAD AMONG THE MASSES’ -SWAMI VIVEKANANDA

## Sachchidananda Industry

The Department of Commerce had organized an industrial visit on 28th January 2017 to Sri Sachchidananda Industry which was located in Mysore with 45 students and accompanied with 2 faculty members. Sri Sachchidananda Industries was a small-scale manufacturing company. It produces a variety of automobile parts varying from small spare parts like nuts and bolts to huge accessories such as exhaust system and fuel mechanisms. The industry mainly focuses on producing Automobile engine components such as pistons, sparkplugs, power house, crankshaft, carburetor, exhaust chain, dynamo, etc... Which are later assembled by the procuring

company or industry to construct an efficient engine or any other major automobile component. The industry's products are supplied to all kinds of Automobile sector companies be it the one producing small motor vehicles or rickshaws to huge industries which produces heavy vehicles and mechanisms such as trucks, cranes.

### **A Report on Industrial Visit To KSRTC.**

An Industrial visit was organized to KSRTC Regional workshop, Kengeri on 30<sup>th</sup> Jan 2017. We had 25 final year B.com students for this Visit. Students were taken to Engine Section, coach section and scrap unit. They were given a practical exposure of cost techniques, valuation of scrap, depreciation.

## Teachers Achievements

- Yeshwanth Kumar C K, Swetha Sarathy and Ashwini T K qualified KSET Examination conducted by University of Mysore on 6th December 2016.
